

Opinions about IT-TRANS

Stefania Di Serio

ICT, security and real estate manager, Umbria Mobilità and Chairwoman IT&I Commission

IT-TRANS is the place to get inspired by expert presentations, to network with professionals and to see the latest innovations and state-of-the-art technology in the exhibition so you can implement it at home!

Gülüz Öztürk

Marketing Manager, Kentkart

It is extremely important for us that we are on hand and take part in the action, for **this is the place where transport companies from around the globe get together** to inform themselves about IT solutions for public transport.

Sjef Janssen

Managing Director, VDV Kernapplikations GmbH & Co. KG

IT-TRANS is a very important trade fair for us. During three days **decision-makers** from transport associations, **suppliers** and **manufacturers** from all over the world meet in Karlsruhe. We look forward to the next **IT-TRANS!**

IT Solutions for Public Transport
International Conference and Exhibition

18 - 20 February 2014
Karlsruhe Trade Fair Center
Germany

Organisers

This year's highlight:
SECUR.IT.Y

Sessions

Speakers from all over the world will lead high-quality sessions and presentations on relevant technological opportunities for the industry, discussing them in detail and generating new ideas for the future of public transport. Security is highlighted in the 2014 edition of **IT-TRANS**.

Check out who will be there – amongst many others:

Session 3 | Tue 18 Feb 2014 from 16:00 until 17:30

Information Technology – Answering to a demanding, intelligent and social community

John Verity, chief advisor, ITSO Limited, United Kingdom
 Bas van Os, director open ticketing, Open Ticketing Institute, Netherlands
 Martin in der Beek, technical director, Rhein-Neckar-Verkehr GmbH, Germany

Session 4 B | Wed 19 Feb 2014 from 10:00 until 11:30

Travel Information – Sharing multi-/co-modal and border-crossing information services

Masaki Ogata, vice chairman, East Japan Railway Company, Japan

Session 5 B | Wed 19 Feb 2014 from 14:00 until 15:30

Interoperable Electronic Ticketing – Between online payment and swipe validation

Sjef Janssen, managing director, VDV Kernapplikation, Germany

Session 6 | Wed 19 Feb 2014 from 16:00 until 17:30

Third Party Applications – Traditional ITCS tasks from a new perspective

Åsa Edholm, project manager development, Samtrafiken, Sweden

Workshops

The partners ASSTRA (Associazione Trasporti, Italy) and VDV (Association of German Transport Companies) will offer an in-depth outlook on their current innovative projects on Wednesday 19 February 2014.

Exhibition

Here you can rely on the industry partners' specific knowledge to help solve your pressing requirements. It will be easy to visit them at their exhibition booths and to discuss the details. They spend all their professional time on your particular problem area! Approximately **150 renowned enterprises, institutions, and associations from 25 countries** present cutting-edge products and developments as well as their innovations for the public transport sector. Subject areas are: passenger information systems, fare management, smart cards, security and software systems, traffic management and many more.

IT is the key! Combined Urban Mobility Village

This specialist exhibition platform focuses on innovative IT concepts, trend-setting products as well as new business models for an intelligent combination of existing and future modes of mobility.

Market Updates

Learn more about recent technological innovations and business development opportunities in the **IT-TRANS** Market Update Forums! The Market Updates are open free of charge to all conference delegates and exhibition visitors.
